

Tolderol Game Reserve Wetlands Bird List

This list has been compiled from the many bird surveys conducted at Tolderol Game Reserve Wetlands between 1993 and 2016. The data has been provided by Birds SA, Natural Resources SA Murray-Darling Basin and the many volunteers who have assisted by providing opportunistic sightings. It is important to remember this is not a complete list and more data will be added as becomes available.

For more information or to find out how to contribute to bird monitoring at Tolderol Game Reserve Wetlands please contact Natural Resources SAMDB on (08) 85 329 100.
